Family planning policy regarding people returned from abroad (CHEN, Xuedong)

[Question]:

Hello. My wife and I are from Fuzhou. We smuggled to the United States a few years ago, and we had a boy and a girl, both of whom are U. S. citizens born in the United States. If we return to China now or if we are deported, what will happen to us? We have no legal status and we are illegal immigrants in the United States. If we return, will we be in violation of the Chinese family planning policy? Will we be fined, penalized, or sterilized? We are afraid that such things might happen to us. We are looking forward to your response and we thank you very much.

CHEN, Xuedong:

We received your email dated May 28. Our response is as follows:

1. According to the regulations set forth in the <<Nationality Law of the People's Republic of China>>, foreign-born children whose parents, either one of whom or both of whom are citizen of China and have not gain permanent status abroad, must be treated as citizens of China and their foreign nationalities are discredited.
2. If you were returned, you were subject to local family planning regulations. If you meet the requirements to have a second child, then you don't have to pay social compensation fee; otherwise, you will be subject to social compensation fee in accordance with applicable laws and regulations.
3. According to certain regulations, we highly recommend the couple who decide not to give birth to more children to have male / female sterilization as their first choice. The people falling into the following six categories are allowed to adopt appropriate and scientific contraceptive methods in accordance with their own conditions and certain policies and regulations, but they should be subject to scientific management. The six categories of people are as follows: people whose first born children are twins or multiples; people who are not suitable for birth control operations; people whose legal children are sick or disabled; people who are infertile; people who get married for the second time (first marriage for the wife) and who are eligible to give birth according to the policy; one of the couple is gravely ill and is unable to take care of himself/ herself.

Without any exceptions, you must be subject to sterilization.

Are people with two foreign-born children in violation of family planning policy?  
Hua Zhang

Hello.

I want to know if we are in violation of family planning policy on account of giving birth to two foreign-born children. My wife is a legal permanent resident of a foreign country, but I am an illegal immigrant with no legal status, and nor am I a student. I entered without inspection. Will we violate the family planning policy if we return to China with two children? Will we be fined or sterilized? Please explain to us in detail. Thank you!

Hua Zhang:

How to register illegitimate foreign-born children's household  
Gang Chen Fu Qing City

Hello:

I have two children. The first one was born abroad in 2005, and the second one was born in China in 2006 after I registered my marriage, both of them are daughters. I don't know how to register them into my household. Shall I be fined? Thank you.

Comrade Gang Chen:

Response to your email dated June 15<sup>th</sup>:

1. If you want to register your children in your household in our country, you must follow the rule setting forth in << Population and Family Planning Regulation of Fu Jian Province>> to pay the social compensation fee.
2. You had a child before you registered your marriage, so it is a birth prior to marriage. If your household type is nonagricultural, you must not have more children after registering your marriage; if your household type is agricultural and you are eligible to have one more child, you must obtain a birth permit first before you give birth to a second child. If you give birth to a child without permission, then you have an early birth.
4. According to Article 39, Chapter Six of << Population and Family Planning Regulation of Fu Jian Province>>, for giving birth in violation of these regulations, a social compensation fee shall be paid by the violator in the amount of one year's disposable income for a county (city, district) town dweller or the average net income of a farmer, based on the figures for the year prior to the discovery of the violation:
  - (1) For early births, a fine from 60 to 100 percent of this figure;
  - (2) For the birth of one additional child, a fine from two to three times this figures. For the birth of the second additional child, a fine from four to six times this figure. For the birth of the third or subsequent additional child (children), a higher fine will be levied.

3. Consult the family planning office at the county level having jurisdiction over your household about the details on social compensation fee.
4. In order to solve the problem of unregistered births, Article 228 of <<Min Gong Zong 228>> stipulates that household police should register a person's household if the following documents are provided: either the person's birth certificate or one of the parent's marriage certificate, along with paternal/ maternal documents (such as paternal/ maternal certificate, court order or notarized judicial certificate). Upon investigation and verification of the police officer in charge of the household, and upon approval from the household unit of the police department at the county (city, district) level, household police should register a child's household into the father's or the mother's household if only the child's birth certificate or one of the parents' marriage certificate is provided,

Paying social compensation fee is not the prerequisite to household registration. Imposing illegal or other fine to people who are in violation of family planning policy is prohibited.

Social compensation fee Mr. Shi Changle City [ckane@yeah.net](mailto:ckane@yeah.net)

What is social compensation fee?

I have two children, and my wife has already been sterilized.

Yesterday I registered my children into my household. Several family planning officials came to my home today, demanding that I have to pay 20,000-30,000 Yuan social compensation fee; otherwise, they will ask a court to execute the payment. What shall I do? How much social compensation fee shall I pay?

Mr. Shi:

Response to your email dated June 18<sup>th</sup>:

1. According to the regulation set forth in Article 3 of <<Social Compensation Fee Management>>, citizens who give birth not in accordance with the stipulations in Article 18 of family planning regulations should pay a social compensation fee prescribed by this law.
2. If you are not eligible to have two children, then you have to pay social compensation fee for the additional child.
3. According to Article 39, Chapter Six of << Population and Family Planning Regulation of Fu Jian Province>>, for giving birth in violation of these regulations, a social compensation fee shall be paid by the violator in the amount of one year's disposable income for a county (city, district) town dweller or the average net income of a farmer, based on the figures for the year prior to the discovery of the violation:

Is forced IUD insertion legal? Min Li

Hello,

Recently I applied a birth permit for my child in Zhang Zhou. I was demanded to have an IUD insertion after the birth of this child and to have ultrasound examination three times a year. I consent to have ultrasound examination because it will bring no side effect. However, I strongly oppose IUD insertion. My colleague's IUD insertion resulted in many gynecological diseases. I just want to know if it is prescribed by law that I must have IUD insertion. Shouldn't I have the right to choose my own contraceptive methods? I am wondering if you may give me a clear answer.

Comrade Min Li:

Response to you email dated June 16<sup>th</sup>.

1. It has been our country's basic national policy to promote family planning because our country is a populous nation. <<Population and Family Planning Law of the People's Republic of China>> states that citizens have reproductive right as well as obligation to follow family planning according to the law. Couples of reproductive age shall be conscientious in adopting family planning contraceptive methods and in accepting the guidance of family planning technical services.
2. According to <<Population and Family Planning Regulation of Fujian Province>>, couple of reproductive age must adopt at least one effective birth control measure, and accept contraceptive or birth control examinations.
3. According to related regulations, IUD insertion and birth control implant are first recommended for couples who have already had a child. The people falling into the following six categories are allowed to adopt appropriate and scientific contraceptive methods in accordance with their own conditions and certain policies and regulations, but they should be subject to scientific management. The six categories of people are as follows: people whose first born children are twins or multiples; people who are not suitable for birth control operations; people whose legal children are sick or disabled; people who are infertile; people who get married for the second time (first marriage for the wife) and are eligible to give birth according to the policy; one of the couple is gravely ill and is unable to take care of himself/ herself.
4. In order to carry out our national family planning policy, it is a task to conduct contraceptive and birth control examinations, and to have couples of reproductive age to adopt at least one effective birth control method. Your support and understanding is greatly appreciated.

Is forced IUD insertion regulated by law?  
Xue Feng Chen 0594-6335580 [idy0620@163.com](mailto:idy0620@163.com)

I just had a baby. Family planning officials demanded that I must have IUD insertion. My husband and I abide by the Communist Party's family planning policy. Because we don't want to have a second child, we have already obtained the one-child certificate. The local family planning office required people to have IUD insertion after the first birth and to have sterilization after the second birth. However, many women I have known had complications after the IUD insertions, such as bleeding, cervical erosion, heavy period, extended period, and pain in the waist and abdomen area. Therefore, I am scared to have an IUD insertion.

Now the society is ruled by law. There are so many different types of contraception methods available that we can choose pills, condom, or other contraceptive method. Besides, IUD insertion is not 100% effective. Why we must be forced to have an IUD insertion? Is this in violation of a citizen's human right? I want to consult applicable national policy. How may we protect our human rights? They have repeatedly harassed me over the phone and visited my home. What shall I do? How may I protect myself in a legal way? May I sue them?

Ms. Xue Feng Chen:

Response to Bing's consultation regarding the definition of returned overseas Chinese

The definition of returned overseas Chinese Bing [bingbing08199@hotmail.com](mailto:bingbing08199@hotmail.com)

Hello! May I ask you about the definition of returned overseas Chinese? I would like to know if I fit the definition of a returned overseas Chinese. I have a legal status abroad, but I am still registered in my family's household. Will I be categorized as a returned overseas Chinese? I have a foreign born child. Will I be eligible to have another child in China?

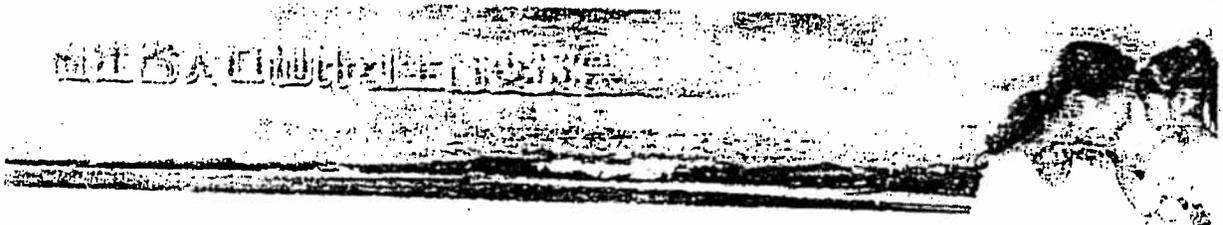

Comrade Bing:

Response to your email dated May 5<sup>th</sup>.

1. According to <<Response Regarding the Status of Overseas Chinese>> (Government Regulation Article 001, 2001) by the State Department's Overseas Chinese Office, a person who has permanent resident status in a foreign country is categorized as an overseas Chinese. If he or she decides to live in China, he or she is a returned overseas Chinese. To be classified as an overseas Chinese or a returned overseas Chinese, one must obtain a certificate from an Overseas Chinese Office at the county level or above.
2. If your name is still on the household registration, you are a Chinese citizen, so you will be subject to local family planning policy and regulations.
3. If you have a specific question, consult local family planning office.

### 张华老师“国外生两个小孩有违反计划生育吗”的答复

国外生两个小孩有违反计划生育吗, 张华

你好,

我想问一下如果我在国外生两个小孩有违反计划生育吗?我的太太在国外有永久居留身份,我本人在国外没有永久居留身份,也不是留学生,是非法入境,我现在想带两个小孩回国定居的话是不是违反了计划生育政策,也要罚款或者要做绝育手术,请详细留言,谢谢!

张华同志:

您5月25日邮件收悉,答复如下:

一、根据《中华人民共和国国籍法》的有关规定,父母双方或一方为中国公民,未在国外定居,本人出生在国外,具有中国国籍,即使因出生取得了外国国籍,原则上不予承认,对其仍按中国公民管理。

二、您回国定居,就应按照定居所在地计划生育的法律法规管理。符合生育第二个孩子条件的,就不用征收社会抚养费;否则,就要按照法律法规规定的情形征收社会抚养费。

三、依据有关文件,对于已决定不再生育子女的夫妻,我们要指导其首选输卵(精)管绝育手术。对于以下六种对象,我们允许其依据自身情况和相关政策、规定,选择科学、适宜的避孕措施,但要接受科学管理。这六种对象:对生育第一胎为双胞胎、多胞胎;生育后患有计划生育手术禁忌症的;政策内生育的子女被诊断为病残儿的;患不孕(育)症的;再婚夫妻符合政策生育的(女方为初婚);夫妻一方患有严重疾病,影响生活自理的。

没有例外情况,必须接受结扎绝育手术。

### 在线咨询“未婚生育,小孩是国外出生的,怎么入户口”的答复

发布日期: 2008-06-17 14:00:00 来源: 计生网 大小: 1000 字节

未婚生育,小孩是国外出生的,怎么入户口? 陈刚 福清市  
您好:

我有俩个小孩,第一个小孩是2005年在国外出生的,第二个是在国内2006领完结婚证以后生的,都是女孩子,不知道该怎么户口,会不会罚款?谢谢

陈刚同志:

您6月15日邮件收悉,答复如下:

一、如果您的孩子要在国内入户,就要按照《福建省人口和计划生育条例》的规定缴纳社会抚养费。

二、您未领取结婚证生育孩子,属婚前生育。如户口属于城市居民,领取结婚证后就不能再生育孩子;如户口是农村人口,符合再生育的条件,经批准后才能再生育第二个孩子。没经批准就生育的,也是属于提前生育。

三、《福建省人口与计划生育条例》第三十九条规定:违反本条例规定生育的,按当事人违法行为被查出的上一年县(市、区)城镇居民人均可支配收入或者农民人均纯收入的以下倍数征收社会抚养费:

- (一)提前生育的,按百分之六十至一倍征收;
- (二)多生育一个子女的,按二倍至三倍征收;多生育第二个子女的,按四倍至六倍征收;多生育第三个以上子女的,从重征收;

四、征收社会抚养费的具体事宜请咨询户口所在地的县级人口计生部门。

五、2008年10月底前,集中解决历年出生人口未落户问题(闽公综〔2008年〕228号文件)规定:提供本人《出生医学证明》或父母《结婚证》之一,同时提供亲子关系(亲子鉴定书,法院判决书、司法公证书等)证明材料的,派出所户籍应当场予以办理落户手续;仅提供本人《出生医学证明》或父母《结婚证》之一的,经户籍所在地派出所民警调查核实,报县(市、区)公安机关户政部门核准后,派出所户籍窗口给予办理随父或随母落户手续。

办理户口登记不得把交纳社会抚养费作为前置条件,严禁对违反计划生育政策的公民进行违规罚款和其他“搭车”收费。

### 福建咨询“强制上环计划生育”的答复

强制上环合法吗? 李敏

您好,

最近我在漳州办理孩子准生证时,被要求在孩子出生后强制上环,和一年3次的B超检查。B超检查对身体不影响,我可以同意,但对于强制上环,我坚决反对,我的同事就因为上环,染上很多妇科疾病。 我想知道,国家有规定要强制上环吗?难道我本人没有选择避孕方式的权力吗?希望你能给我一个明确的答复。

强制上环是国家规定的吗? 陈雪峰 0594-6335580 LvV0R20@163.com

我刚生完宝宝,计生办的工作人员催着我去上环,我和丈夫是积极相应党的计划生育政策,也领了独生子女证,不想再生二胎了,我们这里计生办的要求一孩上环,二孩结扎,可是我周围好些妇女上环后身体不适出现出血、宫颈糜烂、月经量增多、经期延长、腰腿酸痛等副作用,所以我对上环有着强烈的恐惧感。

现在是法治社会,而且避孕方式很多,我们可以采取口服避孕药或者避孕套等方式,再说上环也不是百分之百有效的,为什么计生办要强制我们上环呢?这不是侵犯公民的人权吗?我想咨询一下国家有相关的法律规定吗?我该如何保护自己的人权呢?他们一再通过电话骚扰以及上门来软硬兼施的方法,我该怎么办呢?可以通过什么法律途径来保护自己?去法院告他们吗?
